

City of Parsons offers a pink polycart with a portion of the proceeds for breast cancer awareness & research

Cascade Cart Solutions has launched the "Kick Cancer to the Curb" campaign by offering a pink polycart with a white ribbon available to purchase from the City of Parsons.

The carts are 95 gallon, commercial grade, and have a ten-year warranty. Each cart has its own identification number which will be recorded in the sanitation office in case it is lost or stolen.

The cart costs \$57.00 plus \$5.27 tax, and Cascade Cart Solutions will donate \$5.00 of the cost to breast cancer awareness.

Customers currently renting a polycart from the city can opt to purchase the special polycart. We will pick up the old cart and stop the rental charges - remember you are responsible for the maintenance. You do not have to be a current customer of the City of Parsons sanitation service to purchase the special cart.

The order form is below and is available in the City of Parsons Utilities office. Orders must be prepaid and will be placed the last week of every month while cart supplies last. Expect a two-week handling and delivery schedule. Call 620-421-7000 for more information.
